

INFORMATION EVENING

ACHIEVE 2B

**Inclusive exchange
network**

ACHIEVE 2B is an inspiring intercultural exchange program facilitating national and international exchanges for high school students with disabilities. ACHIEVE 2B Trust is a New Zealand based Registered Charitable Trust.

Interchange Outer East is proud to have partnered with ACHIEVE 2B for an international high school student exchange pilot program. It is anticipated that this will lead to ongoing exchanges between our two organisations.

In 1988/99, Julia Hartshorne, who has mild cerebral palsy, did the unthinkable and completed a one year American Field Service (AFS) exchange program to the USA. This was an overwhelmingly positive experience that provided the blue print for her life and led to the creation of ACHIEVE 2B.

Julia is coming from New Zealand to meet with the Interchange community and present this exciting, one-of-a-kind opportunity. She is looking forward to meeting with potential exchange hosts, as well as young people who may be interested in participating in the program, and their families. Those interested will also be invited to participate in a follow-up workshop on Thursday 6th August.

**Please join Julia and Interchange Outer East at this upcoming
ACHIEVE 2B Information Evening!**
