Our Beliefs

Family Focus

We acknowledge and celebrate the value of every member of the family, and the importance of the family unit. Families of people with disabilities have the right to dream, plan and achieve their goals as all families do.

Human Rights

We focus on upholding and promoting human rights – freedom, dignity, equity and respect, of all people in the community. Specifically, we focus on three key areas within human rights to enhance and support our community: child safety; freedom from violence and abuse; and embracing and promoting diversity.

Community

We strongly believe that everyone has a role to play in creating inclusive communities. IOE is a coalition of families, employees, volunteers and partners in which everyone is an active community member.

Trust

At IOE, our relationships are built on trust, which means we listen, share and we are honest.

Fun

We foster a culture of fun and friendship at the basis of all our services. We strive to create a safe environment where people can play, be themselves, build natural friendships and benefit from peer support and social connection.
